DESCRIPTORS	*Administrative Problems; *Annotated Bibliographies; Community Involvement; *Delivery Systems; Mental Health; Mental Health Clinics; *Mental Health Programs; Mental Illness; Program Administration; Program Development; *Program Planning; Psychiatric Services; Research Reviews (Publications)

ABSTRACT

The present bibliography contains nearly 150 selected references on "Problems, Planning and Delivery of Mental Health Services," published chiefly during 1950-1965 and over 175 selected references published chiefly during 1966-1973. The references listed in the bibliography are by no means definitive nor are they meant to be, but they represent many of the old and current publications which may be used as guides for further research. The bibliography is divided into two parts: Part "one" contains the listing of books and monographs and Part "two" is a listing of articles and periodicals. The references are arranged by the author in alphabetical order when possible. The references focus on such topics as mental health, manpower trends, human problems of a state mental hospital, formal organizations, clinical records for mental health services, relationships between cultural attitude toward individuality and care of the mentally ill, sensitivity training, critical issues in the use of physician associates and assistants, the community as a mentalhealth system, the role of community organizations in bargaining with the establishment for health care services, citizen influence health service programs, and other topics. PROBLEMS, PLANNING AND DELIVERY OF MENTAL HEALTH SERVICES

A SELECTED RESEARCH BIBLIOGRAPHY

Part I (1950-1965) and Part II (1966-1973)

by

Prakash C. Sharma, Ph.D.
Department of Sociology
University of North Alabama
Florence, Alabama

Part I (1950-1965)

PREFACE

The present bibliography contains nearly 150 selected references on "Problems, Planning and Delivery of Mental Health Services," published chiefly during 1950-1965. The references listed in the bibliography are by no means definitive nor are they meant to be, but they represent many of the old and current publications which may be used as guides for further research. The bibliography is divided into two parts: Part one contains the listing of books and monographs and Part two is a listing of articles and periodicals. The references are arranged by the author in alphabetical order when possible.

I would like to thank Miss Nancy Mills for typing the bibliography and Mrs. Mary Vance, Editor, Council of Planning Librarians, for her encouragement and assistance in the completion of the bibliography.

It is my hope that those engaged in various aspects of mental health planning and its services, will find this material a useful reference material.
